Summary

Welcome to my profile!

I'm Mohd Hammad, Business Intelligence and Data Analytics professional with hands-on experience in delivering dashboards, reports, and analytical solutions using Power BI, SQL, DAX, Power Query, and Excel. My work focuses on transforming raw data into clear, reliable insights that support informed decision-making and performance improvement.

I have experience gathering business requirements, defining KPIs, building data models, and ensuring data accuracy and consistency across reporting systems. I work closely with stakeholders to understand business needs and translate them into practical, data-driven solutions within structured, project-based environments.
